

CHILD ACCEPTANCE AGREEMENT

After having a minimum of two weeks to review the child referral information and having this information reviewed by an international medical professional:

I/We _____ agree to adopt a male/ female, by the name of: _____, in the country of _____, born _____.

Based on the information I / we know of the child (ren), I / we accept the child (ren) as my / our own and want CHILDREN'S HOUSE INTERNATIONAL (CHI) and the country of _____ to proceed with all adoption arrangements, as soon as possible.

I / We understand that the child referral information has come from the country of origin by its Central Authority or country specific legal process. It has been reviewed by a CHI representative and/or CHI International Specialist for completeness. We further understand that the referral was administered from the CHI Social Services Supervisor for my/our case. If we have any clinical questions regarding the child referral, we will seek counsel from our home study provider social worker and/or our CHI Social Services Supervisor. If there are any medical concerns I/we will seek a medical professional for counsel.

We/I have been advised that we have two weeks to review the child referral information and have this information reviewed by a medical professional.

I / We agree to indemnify and hold CHI harmless from any and all liability, losses, damages, judgments, or claims arising out of or in any way related to the child, and which are incurred or arise at any time after referral and placement in the home.

I / We understand I / we will be solely responsible for paying all costs of any and all travel and travel activities of myself / ourselves and the identified child, including, but not limited to airfare, airport taxes, exit fees, accommodations, meals, taxis, entertainment, guides, sightseeing, and travel insurance. I / We shall be solely responsible for obtaining and paying for my / our own passport and / or travel visa. CHI IS IN NO WAY RESPONSIBLE TO REIMBURSE ME / US FOR THESE EXPENSES.

I / We understand that CHI is not responsible for medical / physical / emotional problems that may be evident in my / our child (ren) after the adoption in the country of origin. My / Our decision to adopt is based on written information and / or pictures.

I / We understand that if I / we adopt a child who was institutionalized in another country, that child is likely to have undiagnosed medical and psychological problems including, but not limited to, developmental delay, FAS, sexual abuse. I / We understand that I / we probably will not be fully aware of the nature and extent of the child's problems until after the adoption is finalized.

Even if the child was not institutionalized, I / we understand that most children adopted from another country are likely to have some undiagnosed medical, psychological, or other problems. For these reasons, CHI does not and cannot guarantee, and makes no warranty or representation, express or implied, concerning the medical or psychological condition of any child. I / We acknowledge that CHI is not and cannot be responsible for any such conditions or problems which may be undiagnosed or unknown.

Prior to placement, a child may have been provided with medical examinations, tests, and / or inoculations. I / We acknowledge and understand that CHI cannot guarantee the results or accuracy of any such examinations, tests, or inoculations.

I / We further acknowledge and understand that while in some cases CHI may have arranged for a child's medical or psychological examination, CHI does not conduct any independent assessment, testing, or evaluation of any child, and CHI has no knowledge of any child's actual medical or psychological condition other than what has been reported to CHI or may appear in any medical records.

Although CHI makes reasonable attempts to obtain all known records on the child, some of the information contained in the medical, psychological, and historical records obtained from a child's country or origin may be inaccurate and / or incomplete. For that reason, CHI does not guarantee, and makes no warranty, express or implied, concerning the accuracy, validity, applicability, or completeness of any information that may appear in any medical, psychological, historical, pictures or video (dates may or may not be known or accurate) or other records or data regarding any child. I/We have been advised to have a medical consultation by an international adoption specialist and I/we are using Dr. _____ for such consultation or we will let the agency know which doctor we select.

I / We have been advised to have a medical consultation by an international adoption specialist, but we feel comfortable with the medical information I/we have received on this child and we waive the right of such consultation.

I / We understand that CHI will do everything they possibly can to help this case proceed quickly; however, I / we understand that government reorganizations, closings, wars, and other problems that are unforeseen at this time can delay our adoption. I / We will not hold CHI responsible for delays beyond their control. If this particular adoption is stopped for whatever reason because of unknown problems (native family wants the child, child dies, mother returns, etc., etc.) another child will be presented to me / us for consideration for adoption.

DISRUPTED OR DISSOLVED ADOPTION AGREEMENT

If, after returning home with the child (ren) I / we decide that I / we cannot parent the above mentioned child (ren), for whatever reason, I / we will provide for the expenses involved for foster care until the child (ren) can be placed with a new adoptive family.

The **dissolution** of an adoption occurs when an adoption ends after it is legally finalized, resulting in the child's return to (or entry into) foster care or placement with new adoptive parents. Dissolution can happen in the country of origin if a Family decides for whatever reason not to take the child home.

A **disrupted** adoption occurs when the adoption ends after the child is placed in an adoptive home and before the adoption is legally finalized, resulting in the child's return to (or entry into) foster care or placement with new adoptive parents. In the case of a crisis situation it is the responsibility of the adoptive parents to inform CHI so that appropriate interventions (aimed at ensuring the permanence of the placement) can be made as soon as possible. Dissolution or disruption of an adoption should only be considered after all other options have been tried and failed. The child should always remain the primary concern when dealing with families in crisis.

If the adoption of a child is final in the country of origin or the country grants the client guardianship, the client is legally and financially obligated to provide care for said child. The Family is legally and financially required by the country of origin to follow the steps for dissolution according to the specific country's laws. (See Schedule A for details specific to your program). CHI provides the details for those steps in the specific country's Letter of Understanding.

CHI strongly encourages families to contact them and/or their home study social worker if they have issues. If a problem with the placement should develop after the arrival of the child in the United States or once the adoption is legally finalized, the following steps will be taken to assist the client:

1. The Social Worker assigned to the case will inform his/her supervisor of the situation. An initial assessment will be made as to the status of the case.
2. A post-placement visit will be set up by the Social Worker assigned to the case to make an assessment:
 - (A) If the assessment determines that the child or any family member is at risk, the Social Worker will help in arranging an appropriate temporary situation.
 - i. If the child is at risk and the family is not cooperating with the Social Worker's efforts to make arrangements for the child outside the home, the Social Worker will contact Child Protective Services immediately.
 - (B) If the assessment determines that neither the child nor any family member is at risk, then the Social Worker will work with the family in developing a plan for the child that includes professional counseling, interventions or evaluations.
3. The Social Worker will discuss all options with the client and will remain in close contact, providing assistance until the problem is resolved; every attempt will be made to preserve the family unit;
4. Should a client decide that disruption or dissolution of the adoption is in the best interest of the family, the Social Worker will discuss the options available to them, indicating which options are in the best interests of the child, taking into account the child's age, length of time in the United States and other pertinent factors;
5. Should the best interest of the child be placement with another client, the Social Worker will make every attempt to locate another placement within the CHI clientele.
6. The Social Worker will assist with arrangements for the child to be placed with a client interested in adopting from the child's country of origin before any other client;
 - (A) If a family is identified, pre-placement visits will be held to make sure that the match is appropriate. The Social Worker will then provide each party with the other's attorney or agency contact information.
 - (B) If a placement cannot be found through CHI, the Social Worker will direct the family to other agencies that can assist in the placement of the child.

7. Should the best interest of the child be placement in an institution or other childcare facility, the Social Worker will assist the client in determining programs that would be best able to fulfill the child's needs;
8. Should the best interest of the child be to return to his/her country of origin, Children's House International will only return the said child with written approval from the Central Authority of the country of origin and the US Central Authority. Children's House International requires that the following steps be considered: The child would only be considered for return to the country of origin in the following cases: a) the child has relatives living in the country of origin or b) the child is of an older age and requests to be returned to his/her country of origin.
9. If Disruption of the adoption occurs, Children's House International will notify the Central Authority of the Child's country of origin and the US Central Authority of these changes in the placement of the adopted child.
10. Children's House International will not accept legal or financial responsibility for a child without approval from the Board of Directors.
11. The original adoptive family remains legally and financially responsible for the child and expenses related to caring for the child in whatever placement is made, until an alternate adoption plan can be made. This would include medical costs, counseling, therapy treatment facilities etc.

CHI will continue to provide consultation of additional support available for families as needed in order to help protect from families re-homing a child on their own.
