

About Our Agency

Children's House International is a non-profit adoption agency, licensed and in good standing since 1975. Our main office is in Washington State; however, we are also licensed in Utah, Idaho, Florida, Louisiana, and Texas.

We began our first adoption program in India and over the years have developed several programs across the world, placing thousands of orphaned children with their forever families. We provide international adoption placement services to all U.S. citizens, regardless of the State they reside.

Many of our staff members are also international adoptive parents. Due to this, we at CHI are very passionate about the children and countries they represent and are extremely well versed in the emotional aspects that go along with an adoption journey.

Children's House International's licensed social workers and registered counselors are experienced in educating and guiding families through the international adoption process. They are equipped in providing Home Studies and Post Adoption and/or Post Placement Report services to families in our licensed states. Outside these states, we assist families as they secure the services of a licensed Hague Accredited home study agency in their area.

In each of the country sections on our website, you will find our Agency Application, Agency Retainer Agreement, and a written description of expected total fees detailed in our Financial Agreement and Disclosure. You will also find information on:

1. The number of adoption placements CHI does per year and the percentage of those placements that remain intact, are disrupted, or have been dissolved.
2. The number of parents who apply to adopt on a yearly basis, based on the data for the prior three calendar years.

Our goal is to make your adoption experience as smooth and enjoyable as possible. Children's House International is proud of its reputation and work hard to maintain it.

Children available for adoption:

The children available for adoption in Mexico are generally **10** years of age and older, sibling groups, and children under 10 that have "special characteristics" (special needs) ranging from minor to severe. Children's House International is also approved to place children in the below circumstances: 3 or more siblings (ages vary)

- 2 siblings, 1 which is more than 10 years old
- a child older than 10 years without a special need
- any age child with a physical or mental special need, correctable or non-correctable.
- Many children have correctable special needs, such as cleft lip and palate, heart conditions, and clubbed hands or feet, spina bifida, cerebral palsy, and developmental delays.

"Loving a Child has no Boundaries"

- A number of these children already had their conditions surgically corrected, but because they had the condition previously, they are considered "special needs".
- Children have a full medical screening, and detailed social information is provided.

CHI is able to help with Mexican Kinship adoptions - MEXICAN Nationals living in the U.S. adopting relative children that qualify.

Parent Requirements:

- Single men and women and married couples may adopt.
- No more than 3 previous marriages per spouse
- Applicants should be **25 years old and at least 14 years older than the child.**
- Psychological Evaluation required
- Families with health and mental issues will be considered on a case-by-case basis.
- Adoptive parents should have clean criminal history records to adopt from Mexico.
- Recreational drug use (i.e. marijuana), even if legal in your state, will likely disqualify you from this program.

We pride ourselves on advocating for those children that seem to have the smallest of voices- but need us most. We take this responsibility very seriously, which is why we have maintained a strong reputation for child advocacy for waiting children.

Time Frame:

The entire process generally takes between **18 to 48** months.

Home Study

If you live in Washington, Utah, Idaho, Louisiana, Texas or Florida, a CHI social worker will complete your home study. If you live outside these states, we will help you find a local agency social worker to prepare your home study. Because Mexico is a member of The Hague Convention on International Adoptions, a home study will be completed by an agency who is Hague accredited is required. Some states have more requirements than others. **Four (4)** post adoption reports from your social worker are required after your adoption. In some cases, Mexico may request additional reports.

Your child will come home on an IH3 visa which means they will be a US citizen upon arrival in the US. We still suggest that families re-adopt the child in their own state.

Adoption Education and Required Educational Materials:

Children's House provides both information and support to our prospective parents. This educational requirement of at least 10 hours is mandatory. Your case manager and home study provider will help you select the courses most appropriate to your adoption.

Travel:

The country requires that both parents travel to Mexico to bring their child home. Both parents travel for 3-4 weeks to begin the initial bonding trip process, and one may return home after 7 to 10 days. Other trips for court and to complete the process are also required. The timing will depend on the state in Mexico the child resides in. The second trip for court is less than a week. The final trip where the new birth certificate, passport and visa interview are between 2 and 3 weeks. Traveling and spending time with your new child in their birth country is truly a life-changing experience and one you can never duplicate.

Our Team in Mexico are professional and well-versed in adoption procedure and will make sure that all necessary steps are completed smoothly. Our Team will assist you during your entire stay in Mexico.
